

How We Helped Deliveroo **Procure Green Energy** **and Save £2.75M Annually**

SWIPE TO READ —

THE CHALLENGE

Deliveroo have 200+ individual ‘delivery-only’ kitchen sites across the UK. Deliveroo take their environmental responsibility seriously, our challenge was to facilitate a economically viable green solution.

GREEN ENERGY

VOLTAGE OPTIMISATION

ENERGY PROCUREMENT

SOLUTION 1 | ENERGY PROCUREMENT

We conducted a comprehensive procurement exercise, diligently evaluating 24+ suppliers to find the best green solution for Deliveroo in each site. Including consolidation of end dates, we achieved...

£2.75M

**ANNUAL SAVINGS

PROCUREMENT**

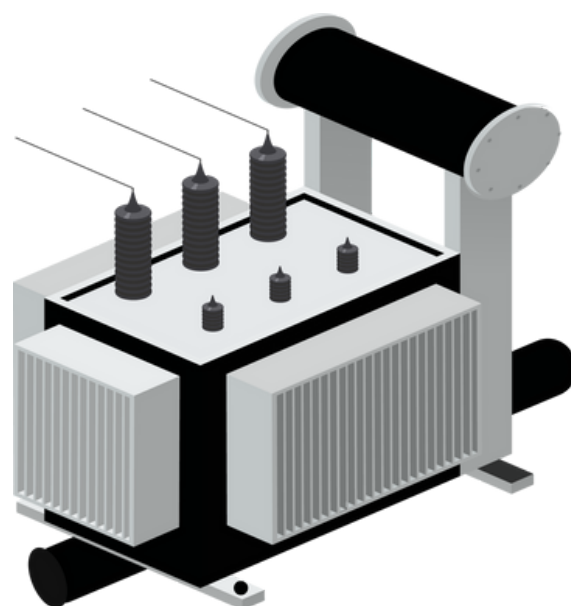

SOLUTION 2 | VOLTAGE OPTIMISATION

Most UK appliance need 220 volts to operate at an optimum level. The average in the national grid is 242 and we have seen as high as 261 volts.

The voltage optimisation unit or 'vo unit', optimises this and sends the excess energy back into the grid. Reducing energy usage, saving money and prolonged appliance lifespan.

WHAT DID DELIVEROO HAVE TO SAY?

“

I recently had the pleasure of working with Fidelity Energy for a major project, and I couldn't be more impressed with their service and professionalism. From start to finish, the entire experience was seamless and exceeded all my expectations.

Outstanding Customer Service: The team at Fidelity Energy is incredibly responsive and attentive. They took the time to understand the business needs and provided tailored solutions that perfectly matched the requirements. Communication was clear and prompt throughout the entire process.

Expertise and Knowledge: The team at Fidelity Energy are true experts in their field. Their extensive knowledge and experience were evident in every interaction. They provided valuable insights and recommendations that greatly enhanced the quality of the project.

Timely Completion: One of the most impressive aspects of working with Fidelity Energy was their commitment to deadlines. They managed the project efficiently and completed it on time, without compromising quality service. This level of reliability is rare and highly commendable.

In summary, Fidelity Energy is a top-tier contractor with exceptional service, quality and outstanding value. I highly recommend them to anyone in need of reliable and professional energy management services. They have earned my trust and my highest praise. Thank you, Fidelity Energy, for a job well done!
